FOR IMMEDIATE RELEASE

Mobile-8 Cooperates with Nine GSM International Operators for International SMS Services

JAKARTA, February 26, 2007 – PT Mobile-8 Telecom Tbk. (Mobile-8) today announced that the company is expanding its overseas network by cooperating with nine GSM international operators in the Asia Pacific region.

Head of International Carrier Relations Mobile-8 **Juliana Dotulong** said that such cooperation is part of the company's commitment to continuously providing value added services based on customer satisfaction. "The cooperation enables Mobile-8 to provide international SMS services. Customers can now send and receive international SMS for Rp500, excluding tax."

Dotulong also explained that in the near future, Mobile-8 will also establish international roaming services with other GSM and CDMA operators as well as with the nine operators mentioned. In addition, the company is conducting a study to appoint one of the GSM operators to become a sponsor of Mobile-8's worldwide GSM roaming service, she further added.

The cooperation on international SMS services with nine operators include Starhub (Singapura), CSL (Hong Kong), Hutchison (Hong Kong), Smartone (Hong Kong), Digi Telecommunications Sdn Bhd (Malaysia), Maxis Communications Berhad (Malaysia), Celcom (Malaysia), Smart (Filipina), and True Move (Thailand).

Juliana also explained that such cooperation with international operators clearly show high confidence from other operators on Mobile-8's leadership in both voice and data communication, as well as its mobility.

"With the support of our world class partners who have long experience in telecommunication industry as well as our technology, we are optimistic that we are able to provide further value added services for our customers – both in Indonesia and abroad – and also optimistic that we can reach four million subscribers in 2007," added Juliana.

To further enhance its customer-oriented services, Mobile-8 had also started the first phase of its national expansion roll-out plan outside Java, by adding the number of BTS from currently 440 BTS to become approximately 1,900 BTS by end of 2007 throughout its national coverage area including Sumatera, Kalimantan, Sulawesi and Bali.

About Mobile-8

PT Mobile-8 Telecom Tbk. is the fourth largest and CDMA-based nationwide cellular operator in Indonesia. Through its product **Fren**, Mobile-8 provides value added services on both data and multimedia facilities within all of **Fren** service coverage within Java, Madura, and Bali.
